David Chalmers is a University Professor of Philosophy and Neural Science at New York University and an Honorary Professor of Philosophy at the Australian National University. He is interested in the philosophy of mind, especially consciousness, the foundations of cognitive science, physics, and technology, and the philosophy of language, metaphysics, and epistemology.

Can we have a meaningful life in a virtual world? The new philosophical implications of such worlds as well as the possibility we might already be existing within one are the subject of the philosopher David J. Chalmers’ new book, *Reality*.

The Singularity: A Philosophical Analysis

Nov 10, 2022

The singularity: A philosophical analysis, David J. Chalmers

1 Introduction

1 What happens when machines become more intelligent than humans? One view is that this event will be followed by an explosion to ever greater levels of intelligence as each generation of machines creates more intelligent machines in turn.

Facing Up to the Problem of Consciousness

Oct 9, 2022

David J. Chalmers, Philosophy Program, Research School of Social Sciences, Australian National University

1 Introduction

Consciousness poses the most baffling problems in the science of the mind. There is nothing that we know more intimately than conscious experience, but there is nothing that is harder to explain.

2303 07103 Could a Large Language Model Be Conscious?

Sep 8, 2022

David J. Chalmers

There has recently been widespread discussion of whether large language models might be sentient or conscious. Should we take this idea seriously? I will break down the strongest reasons for and against.
